

# SingHealth as a Research Institution (RI) in collaborative multi-site HBRA research

The conduct of Human Biomedical Research (HBR) is regulated under the Human Biomedical Research Act (HBRA).

HBRs are to be conducted under the supervision of a **Research Institution (RI)** and reviewed by an **Institutional Review Board** appointed by that RI.

Research Integrity, Compliance and Ethics (RICE) will host a webinar to share the responsibilities of SingHealth as a RI and the appointment of Centralised Institutional Review Board (CIRB) to perform ethics review.

## Webinar Highlights:

- What is a Research Institution (RI) under HBRA?
- Appointment of CIRB for ethics review in SingHealth
- Collaboration with non-SingHealth Institutions
- Does my research require CIRB's review?

**Registration is required!**

**2 NOVEMBER 2021 (TUE)  
12:00 PM – 1 PM**

Please register using your **SingHealth corporate email** (not personal email).

After registration, you will receive a confirmation email.
