

Responsible Care and Use of Laboratory Animals Course (RCULAC)

A regulatory requirement which meets the training guidelines of the National Advisory Committee for Laboratory Animal Research (NACLAR) in Singapore, this Course aims to provide an understanding of basic animal experimentation requirements, highlighting proper animal handling and responsibilities of researchers. All users of animals for scientific purposes, e.g. Principal Investigators, Collaborators and Research Technicians, must attend this Course before commencing any work on animals.

The Course comprises two sessions – a series of lectures via Zoom, and hands-on training on mice and rats.

For SingHealth Duke-NUS Institutions*

Lecture Sessions via Zoom	Hands-on Sessions at SEMC Academia	
9am - 1:30pm	AM session: 9am - 12pm	PM session: 2pm - 5pm
▪ 11 Feb 2022	▪ 16 Feb 2022	▪ 23 Feb 2022
		▪ 9 Mar 2022
▪ 8 Apr 2022	▪ 20 Apr 2022	▪ 5 May 2022
▪ 3 Jun 2022	▪ 22 Jun 2022	▪ 6 Jul 2022
▪ 12 Aug 2022	▪ 24 Aug 2022	▪ 7 Sep 2022

*For Non-SingHealth Duke-NUS institutions, please contact SEMC at semc.rculac@singhealth.com.sg

Institution	Before GST	After GST
SingHealth Duke-NUS	S\$ 192.10	S\$ 205.55
Non-SingHealth Duke-NUS	S\$ 322.10	S\$ 344.65

Programme

Lecture topics (via Zoom):

- Laws, Regulations and Guidelines for Biomedical Research in Singapore
- The IACUC and PI Responsibilities
- Alternatives: The 3 "Rs" and Responsibility
- Use of Statistics as Determinant for Number of Animals to be Used
- Zoonotic Diseases in Laboratory Animals
- Animal Handling and Blood Collection
- Animal Anaesthesia and Pain Management
- Radiation Protection & The Use of Radioactivity with Animals
- Occupational Health in Animal Research
- Institutional Biosafety Committee (IBC) & PI Responsibilities

Hands-on Exercises on Small Animal Models (mice and rats):

(Including Demonstration on Rabbit Handling)

- Identification, restraint and handling
- Routes of injection (subcutaneous, intramuscular, and intraperitoneal)
- Blood sampling (tail vein, tarsal, retro-orbital, jugular, cranial vena cava, cardiac)
- Euthanasia and necropsy
