

Behavioural and Implementation Science for Health and Healthcare Services (Synchronous E-learning)

1 - 2 December 2022 (Thursday - Friday)

Register by 7 Nov

Overview

There is often a disconnect between what we know and what we do in health care. In order to reduce this research-to-practice gap, experts in behavioural and implementation science have studied barriers, facilitators and provided tools to ensure evidence-based interventions can be effectively delivered and scaled. The aim of this live-online course is to provide an introduction to behavioural and implementation science, and provide leaders and managers within the healthcare system with strategies to improve the uptake of interventions into routine practices, thereby increasing public health impact.

Learning Outcomes:

- Understand why behavioural and implementation science is important to health and healthcare.
- Identify factors that hinder the translation of evidence to sustainable practice and system change.
- Be able to describe and apply at least one framework for designing a behavioural and implementation strategy and apply this to a real-world health challenge.
- Be able to describe at least one innovative evaluation design that examines implementation and outcomes.

Course Details

SSG TGS Number: TGS-2021010448

Course Duration

- **8.30am – 1pm (Days 1 & 2)**
- **Online via Zoom**

Pending CME, CNE and CPE points

Who Should Attend

- All healthcare professionals and healthcare-related job roles
- Researchers and research-related job roles

Why Attend

Course participants will learn principles and selected frameworks of behavioural and implementation science, how to tailor strategies to enhance uptake of clinical innovations into routine practice, and to identify and overcome implementation barriers. You will also learn ways to evaluate their effectiveness so that apart from knowing ‘Does it work?’, you will also examine ‘How does it work? For whom does it work?’.

Course Fee

Full Course Fee: \$950

Nett Course Fee After SSG Subsidies (Incl GST)

70% - 90% SkillsFuture Subsidy Available for Singapore Citizens & Permanent Residents (PRs)

Singapore Citizens 39 years old or younger	\$304.95
Singapore PRs & LTVP+ Holders*	
Singapore Citizens 40 years old or older eligible for MCES	\$114.95
Enhanced Training Support for SMEs	\$114.95
International Participants (Incl GST)	\$1016.50

- Please refer to the course webpage for the full breakdown of the course fee. *For LTVP+ holders, terms and conditions apply.
- **Learners must record at least 75% attendance and pass all assessment components to successfully complete the course and receive a Certificate of Completion.**
