Patient Safety & Quality Archives 2023 Volume 4 Number 1

SingHealth Duke-NUS Institute for Patient Safety & Quality

SingHealth Duke-NUS Quality & Innovation Day 2023

The annual event with more than 800 participants, aims to celebrate the quality improvement efforts of SingHealth Institutions and to inspire us to look past the challenges, in our drive towards building high-reliability healthcare organisations for our patients, staff and visitors.

The curated programme keeps us up-to-date on innovative methods, processes and tools in improvement through sharing and learning with fellow colleagues and invited speakers from healthcare and beyond.

The event also gathers global community of learning inter-professionally in patient safety & quality, where members of the Global Action for Leaders & Learning Organizations on Patient Safety (GALLOPS) are invited to participate in this annual event that brings both local and global community to learn best practices together.

This is an interactive PDF, simply click or tap the icon to get redirected.

SingHealth Duke-NUS Institute for Patient Safety & Quality

SingHealth Duke-NUS Quality & Innovation Day 2023

The annual event with more than 800 participants, aims to celebrate the quality improvement efforts of SingHealth Institutions and to inspire us to look past the challenges, in our drive towards building high-reliability healthcare organisations for our patients, staff and visitors.

The curated programme keeps us up-to-date on innovative methods, processes and tools in improvement through sharing and learning with fellow colleagues and invited speakers from healthcare and beyond.

The event also gathers global community of learning inter-professionally in patient safety & quality, where members of the Global Action for Leaders & Learning Organizations on Patient Safety (GALLOPS) are invited to participate in this annual event that brings both local and global community to learn best practices together.

This is an interactive PDF, simply click or tap the icon to get redirected.
