Presented By:

Artificial Intelligence (AI) has changed our lives, particularly its subtype, deep learning. As the field matures and there is increased interest in developing AI technologies for healthcare, a key consideration is how innovators and healthcare personnel can be educated about these advances and what roles they will assume in designing, validating, and implementing them.

Join us in this upcoming session as we invite young and aspiring students from various prestigious tertiary institutions, together with their internship mentor in SingHealth, to share about their nascent learning journey and educational experience in AI.

MODERATOR

DR CHEONG WEI YANG
Deputy Secretary (Technology),
Ministry of Health

KABILAN ELANGO VAN
Research Officer,
Singapore Eye Research Institute (SERI)

A/PROF DANIEL TING
Director – AI Programme,
SingHealth

MELISSA DU
Massachusetts Institute of
Technology (MIT)

ARUN THIRUNAVUKARASU
University of Cambridge

HAORAN (RAYMOND) CHENG
Emory University Rollins School of
Public Health

JOANNE SU
National University
of Singapore

Key thought leaders will then discuss the importance of education in AI and ways to increase AI literacy among healthcare personnel and even the broader healthcare system. They will also share insights on how AI literacy would help develop trust in AI, which could help in the wider adoption of AI products and transform healthcare delivery.

MODERATOR

VERONICA PUAH
Executive Director – Community,
SGInnovate

CAI YILUN
Solutions Director,
SenseTime

ASSOC PROF CHOW WAN CHENG
Senior Associate Dean – Academic Medicine,
DukeNUS Medical School

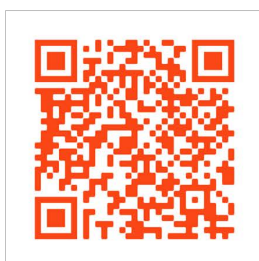

DR MARY KAN
Programme Director,
Singapore Biodesign

DR YEOW SIANG LIN
Head of Enterprise,
National Health Innovation Centre
Singapore (NHIC)
