

Eureka International Certificate Course in Translational Medicine

Eureka Institute for Translational Medicine

15 to 21 October 2023 • Siracusa • Italy

Call for: **Registrations**

Registration Closing Date: **14 August 2023**

Background from Eureka Institute for Translational Medicine (Eureka)

Since 2009, Eureka has successfully developed and hosted the International Certificate Course in Translational Medicine (ICC_TM).

The programme is designed to build skills to foster innovative teams, critical thinking, and problem solving. The ultimate goal is to produce multidimensional, interdisciplinary professionals who are prepared for a wide range of TM careers focusing on improving human health.

We will examine case studies tailored along translational medicine principles, and help you develop creative problem-solving strategies and novel skills to build new kinds of teams. You'll also hone your ability to communicate effectively across broad audiences. The certificate programme is tailored to individual needs and is based on learner-centered discussions and mentoring by internationally recognised leaders. Skills garnered from this course will help you to address the challenges facing drug development today and bridge the divide between concept and patient.

Objectives

Through this 7-day course, students will:

- Analyse the business, scientific and regulatory aspects of TM
- Explore the challenges professionals encounter in TM
- Develop critical thinking skills to approach the challenges in TM
- Develop communication skills for presenting complex scientific ideas to a broad spectrum of people

Only limited seats are available for SingHealth / Duke-NUS which is subjected to review and selection by Eureka Organising Committee.

Eligibility

- Only SingHealth / Duke-NUS staff will qualify for registration.
- Mid-level career TM professionals.
- All students must commit to attend the full 7-day course.
- Students are expected to arrive on Saturday 14 Oct and leave on Sunday 22 Oct.

Course Fees

- Course fee is fully subsidised for successful selected nominees from SingHealth / Duke-NUS.
- Lodgings, airport transfers, related meals and course materials will be fully covered by Eureka Institute for selected nominees during the entire course period.
- Flight travel will have to be covered by selected nominees.
