IT SECURITY AWARENESS

USB Storage Protection

- Only approved encrypted USB storage devices should be used to transfer research files
- Store all USB storage devices in locked drawers when not in use; no storage devices should be left slotted in computers or laptops unattended
- Protect against any loss, damage or theft

Protecting Confidential Data

- Work laptops must be secured with laptop security cable lock and password locked when not in use
- No confidential information should be transferred, downloaded, or stored in personal laptops
- Do not post or store confidential data online
- Do not leave confidential data in electronic or physical form on printers, photocopiers, waste bins etc.

Report Suspicious Events

- Think someone have stolen data from your PC?
- Suspect malware in your PC?
- Loss, theft or damage of IT resources?
- Think your laptop is compromised?
