S3 Conference 2025

The S3 Conference 2025 is a premier healthcare simulation event hosted by the SingHealth Duke-NUS Institute of Medical Simulation (SIMS) and jointly organised with Society for Simulation in Europe (SESAM) and The Gathering of Healthcare Simulation Technology Specialists (SimGHOSTS). It will be held from 5 to 7 November 2025 at Academia, Singapore. Pre-conference will be held from 3 to 4 November 2025. The conference theme is "Integrating Simulation; Future-proofing Practice".

Our Core Values

The S3 Conference 2025 brings together the brightest minds and ideas in healthcare simulation. Attending will allow one to stay at the forefront of simulation capabilities and applications across various domains of education, directly contributing to our organization's goal of strengthening healthcare professional practice and improving patient care standards.

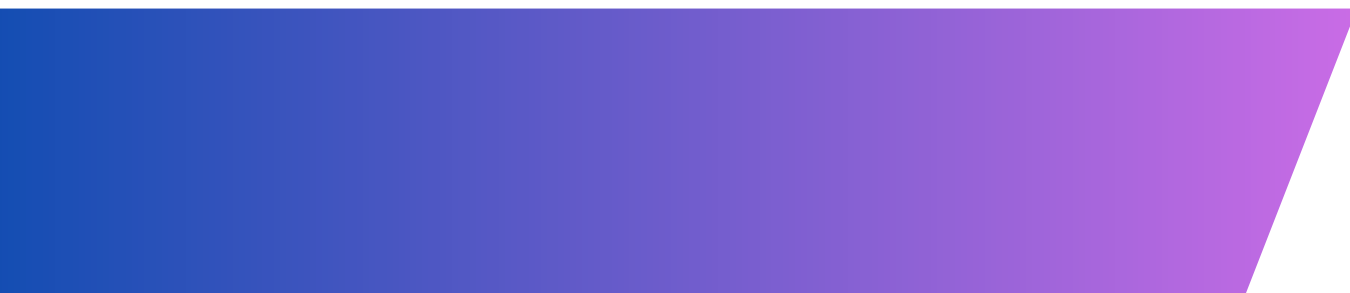

The Guide

The decision maker is more likely to approve your attendance if you can demonstrate that you will get enough benefit from attending to justify the cost. We suggest that you demonstrate the benefits first and then summarize the costs at the end. Keep it concise - just 1-2 pages at the most.

Justify why you need to attend

Explain in specific terms how you will benefit from attending and relate this to your role and/or your employer's mission/key activities.

Some examples you might find useful are:

This event will enable me to interact with healthcare simulation professionals from around the world. I will be able to identify emerging trends, best practices, and innovative approaches that can be applied to enhance our simulation program and educational outcomes.

The conference's focus on future-proofing practice aligns perfectly with our organization's mission to anticipate and prepare for future healthcare needs. By attending, I can gain insights into how simulation can be used to address upcoming challenges in healthcare delivery and education.

As a [your role], attending S3 2025 will provide me with valuable opportunities to [specific benefit related to your role, e.g., "explore cutting-edge simulation technologies", "learn about integrating simulation into various healthcare disciplines", "network with simulation experts to solve challenges we're facing in our program"].

The conference program includes sessions and workshops that will directly benefit my work on [specific project or responsibility]. For example, [mention a relevant session or workshop if known].

I commit to preparing a comprehensive report and presenting key learnings to our team upon my return, ensuring that the entire organization benefits from my attendance.

By attending the S3 Conference 2025, I will gain invaluable knowledge and connections that will directly contribute to enhancing our simulation program and, ultimately, improving patient care standards in line with future healthcare needs.

Demonstrate the value to your organization

Commit to preparing a report and/or sharing what you have learned with your colleagues when you return. This increases the value of your attendance by ensuring that the whole team can benefit.

Information to cover includes:

- Overview of the key themes, ideas, and innovations discussed at the event
- Highlights from keynote and plenary sessions
- Workshop and skill development highlights
- New contacts made and potential collaborations
- Information about new simulation technologies and methodologies
- Ideas for improving our simulation program and educational outcomes
- Copies of relevant materials and resources obtained during the conference

Cost

You may refer to the registration cost [here](#).

Hotel Information

For overseas participants, please refer to the accommodation options [here](#). We have secured the hotel at a highly competitive price"
