WEBINAR SERIES (13-29 APR 2020)

# A COVID-19 World: What Do We Know? How Are Governments Responding?

## Webinar Details (Part 1)

**Date:** 13 April 2020

**Time:** 12:30pm – 1:30pm (SGT)

## Synopsis:

This session aims to provide an overview of the basic concepts of infectious disease epidemiology and how it helps us understand and change the epidemic curve. Various impact and challenges of infection prevention and control strategies such as such as healthcare professional protection, contact tracing, isolation, quarantine, travel restrictions and entry screening will also be explored. Besides, the speakers will discuss the impact of the COVID-19 outbreak on business operations and share their on-ground experience from their respective fields.
