WEBINAR SERIES (13-29 APR 2020)

# Preventing and Treating COVID-19: When Will We Get a Vaccine? Are There Any Effective Treatments?

## Webinar Details (Part 2)

**Date:** 20 April 2020

**Time:** 12:30pm – 1:30pm (SGT)

### Synopsis:

What is the vaccine development process from the “prototype” identification to the end goal of global immunisation? What are the available therapeutics options including new and re-purposed drugs? Find out about the process of evaluating the new treatment's safety and efficacy, as well as ensuring its access and availability. Roadmap of key activities and expected timeline will also be discussed in this session.
