

Webinar 2

Employing a One Health framework to examine emerging infectious diseases in the context of Global Health

Webinar details:

9 Jun 2020, SGT 4pm - 5pm, Zoom

[Click here to register](#)

Synopsis:

This webinar will pick up the thread of the main challenges and importance of the One Health approach in the fight against emerging zoonotic infections. It will explore strategies to prevent emerging infections through controlling the source. It will explain available tools, like surveillance systems, to fight these infections. The multi-disciplinary nature of actors and sectors involved in fighting emerging zoonotic infections will be emphasised.

Speakers:

Dr Erik Karlsson

Director, National Influenza Center for Cambodia and H5 Reference Laboratory
Institut Pasteur, Cambodia

Dr Ian Mendenhall

Faculty, SingHealth Duke-NUS Global Health Institute
Principal Research Scientist, Emerging Infectious Diseases Programme, Duke-NUS
