

The COVID-19 pandemic through the lens of data

DATE: 26 Mar 2021

TIME: 2pm - 3pm

VENUE: Zoom

ABSTRACT

Beyond the now-familiar numbers on infection rates and vaccinations, a host of data spanning economics, finance and mobility illustrate vividly the epoch defining changes taking place through this pandemic. In this presentation, we will look at some compelling visualisations that show how we stopped and resumed work, the pace and magnitude of policy support across key countries, years that it will take for countries to go back to pre-COVID GDP levels, how a post-pandemic economy can look like and so on.

SPEAKER

Dr Taimur Baig

Managing Director & Chief Economist, DBS Bank

Dr Baig heads economics as well as macro strategy for interest rate, credit, currency and equities at DBS Group Research. He also advises the bank on risk management and investment strategy. He has published extensively for both specialists and a general audience, on areas including monetary policy in a deflationary environment, exchange rate regime determination, demographics, energy sector, frontier markets, fiscal policy efficacy and financial market contagion. Dr Baig holds a Ph.D. in Economics from the University of Illinois at Urbana-Champaign. He attended London School of Economics and Wabash College for his B.A. in Economics.

Registration is open to all. To register, kindly scan the QR code or visit <https://nus.sg.zoom.us/joining/register/tZApduqurDwtGNU72zcDtdQsBQrJmDsRN-42>.

After registering, you will receive a confirmation email containing information about joining the webinar.

Kindly note that the webinar will be recorded and uploaded onto YouTube.

Email sdghi@duke-nus.edu.sg if you have any queries on the event.
