FM ACP INNOVATION HOUR

Intellectual Property 101

Presentation 1: Role of SHIP and Protection of Your Invention with Us

SingHealth Intellectual Property (SHIP) is the technology transfer office serving SingHealth, specializing in patenting, licensing, business development and commercial matters. SHIP aims to make it easy for SingHealth clinicians and researchers to be involved in the research innovation process by working closely with them to provide guidance in seeking protection for their invention and to move their invention towards commercial opportunities.

Presentation 2: Creation, Ownership, Protection and Exploitation (COPE)

The presentation relates to the management of IP in public agencies.
