

## Together

By Ying Pin, Toh

Monitors beeping

Phones ringing

In the hurried madness of life

Let us take some time to remember

For we are soldiers fighting

Disease, death, suffering –at every turn

Those who have courage to be honest with self

And have trod this jagged path for long enough

Will know deep within, we have felt desperate, burnt out, weighed down

So let us as an army, united

Embrace humanity in each other

As soldiers, united, let us leave no man behind
