Deepen Your Knowledge & Practice in Global Health

SINGHEALTH DUKE-NUS GLOBAL HEALTH FELLOWS PROGRAMME

The **SDGHI Global Health Fellows Programme** seeks to support and encourage the growth of Global Health practitioners within the SingHealth Duke-NUS Academic Medical Centre (AMC).

Gain the opportunity to pursue a sponsored 24-month part-time Master of Public Health programme (specialising in Global Health) at the Saw Swee Hock School of Public Health, National University of Singapore.

About the Programme

The SDGHI Global Health Fellows Programmes seeks to support and encourage the growth of Global Health practitioners within the SingHealth Duke-NUS Academic Medical Centre (AMC). It aims to grow a cadre of Global Health leaders within the AMC who can:

- Contribute to global and population health-related initiatives
- Provide academic leadership to global and population health programmes
- Contribute to the development and teaching of future local training programmes in Global Health
- Drive Global Health work with SDGHI as a faculty member of the institute

Four Key Components

The Programme will expose individuals to learning through the following four major components:

1. **Completion of a Master of Public Health** at the Saw Swee Hock School of Public Health, National University of Singapore
 - Fellows must be first enrolled in the Master of Public Health (Global Health) at the Saw Swee Hock School of Public Health on a part-time basis, and must complete the programme in 2 years
 - Fellows must select the **Global Health track**, completing all the Global Health specialisation core modules and other relevant modules
2. **Lead a Field Research Project**
 - Fellows are expected to undertake a field research project as required by the MPH programme, either in Singapore or at an overseas site for at least 3 weeks
 - Fellows may apply for the Global Health Fellows Programme Scholarship Research Grant to support their field research project (capped at SGD15,000) by submitting a separate grant proposal prior to the start of the project
3. **Preparation of one or more Global Health manuscripts for publication**
4. **Active participation in 75% of stipulated SDGHI's Global Health lectures/webinars**

Learning Outcomes

At the end of the Programme, Fellows will be able to:

- Analyse health needs of populations, health care systems and policies across different settings
- Conceptualise and conduct field based healthcare related research projects
- Design, monitor and evaluate sustainable and effective health programmes at local, national and international levels
- Demonstrate ethical reasoning and professional integrity in the application of principles of health equity and social justice
- Demonstrate skills in advocacy, collaboration and negotiations

Programme Support Entitlements

As an SDGHI Global Health Fellow, the following will be supported:

1. Course fee to undertake the Master in Public Health at the Saw Swee Hock School of Public Health, including miscellaneous fees*
2. Salary during absence from work to undertake the Master in Public Health for a maximum period of 3 months over two years
3. An additional grant of up to SGD15,000 to undertake a field research project (locally or overseas)#

*Capped at the prevailing MPH fees at SSHSPH for Singaporeans and Singapore Permanent Residents only

#Subject to approval via a separate grant application

Programme Eligibility Criteria

All applicants must fulfil the following criteria before submitting their application:

1. Fulfil admission criteria of the Master in Public Health programme at SSHSPH
2. Is currently at least an Associate Consultant of SingHealth and/or any of its institutions

Selection Criteria

Priority will be given to candidates who:

- Demonstrate maturity, integrity and cross-cultural awareness / sensitivity
- Commit to contribute to the development of global health in our region and to building the necessary capabilities in the SingHealth Duke-NUS AMC

How to Apply
